

CHECK EVERY COMPONENT BEFORE INSTALLATION.

1. After you open this package, please check the components in accordance with the list below.
 2. If any components are missing, please contact the local agent or our company immediately.
- Therefore, below drawing is for reference only.**

NO.	NAME	QTY
1	Faucet body	1
2	Rubber washer	1
3	Nut	1
4	Intlet hose	1
5	Main control box	1
6	Tapping screw	2
7	Wall plug	2
8	Aerator	1

IMPORTANCE FOR INSTALLATION

1. Thank you for using our high quality products. The product has been passed the functionality test before ex-factory, please do not disassemble by yourself at will.
2. The impurity must be cleared away from the inside service pipes before installation to make sure good functionality of water spray.
3. The working pressure of this product is 0.02MPa- 0.6MPa; The best water pressure is 0.1MPa-0.5Mpa. working voltage: DC 4.6V-6V; static power capacity: 0.18MW; sensor distance: 10CM; impulse width: 35ms; working water temperature: 3℃ -75℃
4. The suitable dimension of sink hole is Φ33mm~Φ38mm. The distance between hole center and wall should be over 120mm.

HELPFUL TOOLS: Spanner.

Declare: We reserve the rights to alter the structure of the product without any notice.
