## Instructies

Schakel de groep of aardlekschakelaar in.  
 Druk vervolgens op de UV of IR knop om een sessie te starten.  
 Indien de sunshower geen sessie start controleer of de flatcable, stap 4, goed gemonteerd is.  
 Bij het eindigen van de IR of UV sessie koelt het apparaat 4 minuten na. Dit wordt aangegeven met 4 knipperende ledjes rond de stop knop.
