

# Installation Instructions

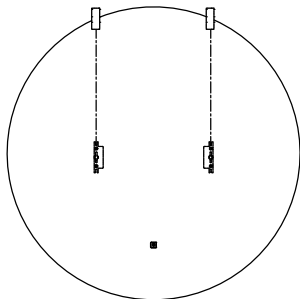

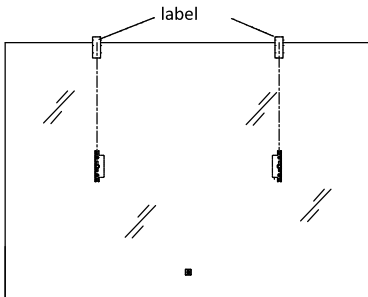

- ① Please measure the distance between the mounting holes.

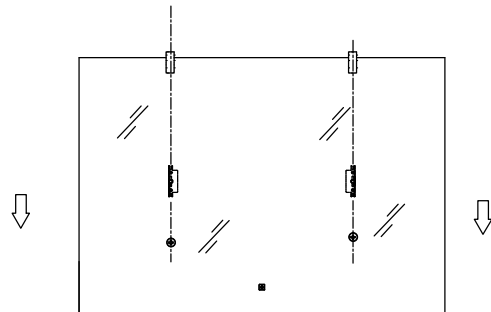

- ② Install the screws according to the drawing. Draw a vertical line higher than the mirror.

- ③ Stick two pieces of masking tape on the mirror at the same distance as the mounting points.

- ④ Make sure the labels and vertical lines are aligned.

- ⑤ Slide the mirror to hole "A" on both sides. Take the mirror from hole "A" on one side and carefully move to hole "B". Same operation on the other side.
